

**BHARATH MACHINES**  
Indian Made Heavy Duty Machine - Since 1999

***"BUY HIGH SPEED & 100% INDIAN, ISO 9001:2015 CERTIFIED PAPER CUP MAKING MACHINE FROM BHARATH MACHINES"***

## **Paper Cup Making Machinery**

In the Indian market, we - Bharath Machines are the sole paper cup machine manufacturer, who are developing fully indigenous machines for making paper cups. This also allows us to provide complete after sales support in a quick time. In addition, we are the first manufacturer of these machine to possess the prestigious certification of ISO 9001:2015.

## **Indian Paper Cup Making Machine V/S Chinese Models**

- Produces about 40% of less noise and 30% of less vibrations
- After continuous operation for over 24 hours, the machines gives stable performance
- Electricity is saved by 25% or more
- One Year Free Service & One Year Warranty
- Simple yet efficient technology
- Strength and weight are double, whereas the maintenance cost is on the lower side
- The spare parts are of ISI grades and are available throughout India

**BHARATH MACHINES**  
Indian Made Heavy Duty Machine - Since 1999

### **Why You Choose Indian Paper Cup Making Machine ??**

- Over 2000 Kg is its weight & Based on PLC technology that reduces wastage
- 3.5K Watts is its overall power demand & Separate and integrated system to count the cups produced
- Manufacturing errors are found via a multi function system for reporting errors

### **Working & Quality Of Paper Cup Making Machine**

**Durability :** The PC1000i is made of a tough frame structure that weighs about 2000 kg's consequent in less vibration and debased noise levels giving an superior operating environment. All parts are indigenous categorized gear boxes, which give accurate placement and timing, making conformable quality even after three years of operation. The life of machines can be well exceed for 10 years under proper fixing and maintenance.

**Motor :** Sourced from topmost branded Indian sellers with 5 star rating.

**Wearing parts :** All moving and sliding parts are hardened and heat treated, which adds extended life to the machine and quality in production with little cup rejections.

**Service availability :** Our branch offices in South India at Hyderabad and Bangalore and the dealers in North India with vast experience and trained service engineers give punctual service, with the reduction in machine downtime, which effects in enhanced productivity.

**Spares Availability :** All spares are accessible at our branch offices. As our spares are from topmost Indian brands they could be sourced from the localized market itself, serving in reduced maintenance cost.

**Value :** Due to the advanced quality of components and spares, our machines command big selling value even after five years of operation.

**Warranty :** The machine screens a warranty of one year, which shows the confidence of manufacturers about their product.

**Modes of Operation :** Automatic or Machine-controlled / Manual

**BHARATH MACHINES**  
Indian Made Heavy Duty Machine - Since 1999

**Auto sensor :** The machines operation is scanned by an automated sensor control system that comprises of five sensors. The sensors ceaselessly monitor the production process and put an end to the functioning of machines if the paper cup is not discharged, if wallpaper and bottom paper are not existing, or if the processed paper cups are not abstracted beyond a special count. This system aids in the reduction of wastage and as well the rejection of cup. In the case of any failure or malfunction during the production activity, the machines will be mechanically switched off. This system insures the longevity of the machines and their spare & components.

### **Key Advantage :**

- Incorporate Easily Accessible And Changeable Moulds.
- Total Power Duty Of 3.5k Watt & Weighs More Than 2000 Kgs.
- Usage Of Plc System, Which Decreases The Wastage.
- Raw Material Can Be Dispatched To Your Place.
- Give You A Pleasurable Experience And Business Sureness.
- Pc1000i Is Planned Considering Our Countries Industrial Change And Job Possibilities

### **We Also Offer :**

- One Year Warranty | One Year Free Service
- Supervised By The Best Technical Engineers
- Easily Available Spare Parts
- We Have Best Service Network All Over India

### **Product Technical Details:**

|                            |                             |
|----------------------------|-----------------------------|
| <b>Product Capacity :</b>  | 45 - 60 Cups / Min          |
| <b>Cup Sizes :</b>         | 45 MI - 330MI               |
| <b>Required Paper :</b>    | Single side poly Coated     |
| <b>Paper Thickness :</b>   | 170 - 270 GSM               |
| <b>Cup Size :</b>          | 45 MI - 330 MI              |
| <b>Electrical Supply :</b> | Three Phase / Single Phase  |
| <b>Power Consumption :</b> | Three phase / Single Phase  |
| <b>Power Consumption :</b> | 3.5 Kw                      |
| <b>Machine Weight :</b>    | 1800 Kgs                    |
| <b>Machine Dimension :</b> | 2700 X 1400 X 1900 mm (LWH) |
| <b>Operating Modes :</b>   | Manual, Automatic           |
| <b>Number of sensors :</b> | 45 MI - 330MI               |
